THE CINQ MONDES CARE PHILOSOPHY

The Cinq Mondes philosophy is based on the conviction that the skin is our vital sensory organ.

Combining technical expertise, results and absolute regeneration, Cinq Mondes treatment protocols use an exclusive manual acupuncture technique without needles: Dermapuncture.

Dermatologically tested, they contain no silicone, no artificial colouring, no animal ingredients and no mineral oil. Cinq Mondes cosmetics draw their inspiration from the Pharmacopoeias of the World and ancestral traditions, and adapt them to our contemporaries through cutting-edge cosmetology, excluding petrochemicals.

OENOTHERAPY AT THE SPA DU CHÂTEAU DE BERNE

Our Vinésime skincare products represent all the magnificence of the vine and the work of man, and put this wealth of plants and know-how at the service of beauty.

Vinésime creates its own active ingredients from prestigious vines selected in the heart of the Climats of Burgundy, listed as a World Heritage Site. From Gevrey-Chambertin to Vosne-Romanée, via Chablis and Marsannay, the estates offer us their most precious grapes, whose molecules developed by the vine's immune system make up the core activity of our products: protecting the skin against the signs of time.

The formulas are based on a carefully considered choice of natural raw materials and a selection of high-quality active ingredients, certified by their suppliers and obtained using specific and unique extraction processes.
